RSP E-Newsletter-3rd Quarter 2016 - metal news delivered exclusively to RSP nation.....

Sales:

- Black 29 gauge has arrived!

RSP is pleased to announce the arrival of 29 gauge Black (19). CSR's are standing by to take your Rolled Rib, flashing and fastener orders. This 29 gauge addition will complement our existing inventory of 26 gauge Black. The cost per LF is the same as our other Rolled Rib 29 gauge Tough Bond 3000 protected colors. Revised color cards are on the way. Don't be the last builder or roofer on your block to place an order! (Actual color behind font)

- Just a reminder.....RSP has Touch up paint (7PP):
 - Despite your best efforts to pull, then install metal panels and trim from the stack...scratches happen. From barely scratching the surface to a bright shiny galvanized scratch, they are an eye sore and a potential problem. The difficulty isn't fixing the scratch, it's having to buy enough paint to repaint the entire building. RSP has inventory of Paint Pens!
 - Stock colors: Sandstone Beige, Polar White, Charcoal, Weathered Copper, Kelly Green, Gray, Light Stone, Brown, Red, Dark Spruce, Mocha, Dark Blue, Black, Ivory and Copper Penny.
 - New "temporary" 2 oz. bottles - Surf, Sage Green and Light Blue (sorry no Ash Gray yet).
 - Paint is Acrylic Lacquer (will need thinner to clean up), dry time is approximately 1 hour.
 - Shake prior to use, push felt tip in/out, apply felt tip lightly to scratch, nick or worn edge.
 - Shelf life is about 1 year, keep out of direct sunlight, store horizontally.
- Pricing - next price increase goes into effect **August 8th**.
 - Panel and trim (bare / painted) will increase 10%.
 - Sliding door accessories and kits will increase 4%.
 - Domestic & Off Shore suppliers continue to be impacted by trade duties & tight supply
- Facebook - if you haven't already, like us at www.facebook.com/RolledSteelProducts
 - This allows **RSP** to engage customers, share feedback and promote new products.
